👤 PROFILE

- As a fresher, I bring strong soft skills such as communication, problem-solving, and time-management. Along with my expertise in React, HTML, CSS, JavaScript, and Next.js, I am very eager to excel as a web developer. I am committed to continuous learning and excited about contributing to a team while growing in my career. I am equally comfortable working collaboratively in a team environment or independently on individual projects. I am passionate about mastering high-end React development skills and knowledge.
